THIS WEEK ON MY WILD AFRICA!

Set on the remote beaches in the Lamu Archipelago, **Tale of the Tides** tells the story of the animals and plants that use the shore over a cycle of tides.

Watch the Film and tell us what you learnt.

CONGRATULATIONS HANAIN!

Hanain (15) is a two time winner of the Nature treasures photo competition.

He was on a game drive in the Tsavo East National Park with his family and was excited when he saw a HUGE Monitor Lizard crossing the road and he decided to take a photograph of it. This won in the junior category of Bizarre Beauty. Each animal is uniquely beautiful.

PHOTOGRAPHY TIP BY USHA HARISH!

Rule of Thirds

In photography, the rule of thirds is a type of composition in which an image is divided evenly into thirds, both horizontally and vertically.

The subject of the image is placed where those dividing lines meet or along one of the lines itself, as shown in these two photos.

TIMPI'S DAY AT THE NAIROBI NATIONAL PARK!

Hi, My name is Timpi and I'm 15 years old. I live in Nairobi, Kenya and I'm here to share with you a trip I took during quarantine (one of the first times I left my house).
On Friday, my mother and I woke up early ready for an adventure at the National Park.

On our way, we picked aunt Sanauis, uncle Risa, their baby Nembiris and my cousin Lelu. Our driver Mwanzia and our tour guide Mukami were very nice and always had smiles on their faces. We entered the park and we were immediately welcomed by a herd of gazelles. We saw giraffes, buffalos, impalas, hartebeests, even ostriches. It was amazing!!

There was one animal that I really enjoyed watching. The white rhino. We found a mother and a child eating and playing together and it was wonderful! They were so elegant and peaceful. I have no idea why someone would kill these beautiful creatures.

Sadly, we did not see any lions but that's okay because we had a great experience. I learnt something that day. Yes things have changed, but when the earth is healing it might not be as terrible as we think.
