PROPOSAL INFORMATION

School Profile (Please share a brief introduction about your school location, describing the environmental threat facing the community) *Max 250 words*

Project Title:

Project Vision

Project Goal

Project Objectives

Project Overview

Current Situation

Describe the current state of the ecosystem. (Your team is free to use drawings and or images that clearly illustrate the challenge and why it should be restored).

You can use additional papers.

Problem Statement

Briefly explain the key threats facing the ecosystem? Why has the area continued to have this problem and what are your fears about achieving the project goal?

Project Activities

Briefly list the activities you will undertake to make the project successful

Monitoring and Evaluation

Briefly explain how you will monitor restoration or regeneration progress in realizing achievement of project outcomes.

Expected Results

Briefly indicate foresight of project outputs and significance on completion.

Sustainability:

Briefly describe the sustainability strategies to ensure sustenance of project results at the end of the project funding.

Project Budget

Please ensure that you provide as much information in a summarized form of all the projects expenditure over the project period. Include information on possibilities of internal or external co-funding.
